Strong in designing server-side APIs and optimizing database models. Excellent problem-solving and collaborative skills, committed to continuous development.

WORK EXPERIENCE

Mechtex Pvt
Intern | June 2022 - August 2023
Job responsibilities:
- Completed three diverse engineering projects including an automatic shaft cleaning machine, torque testing setup, and gear pinion slip test.
- Collaborated with team members in the Engineering Department to gather requirements and deliver functional project solutions.

PROJECTS

1. Movies List App | ⊕ | 🐙
JavaScript | Redux | Git | Node.js | Express.js | MongoDB | HTML5 | CSS3
- Implemented a full CRUD backend server using Node.js, Express.js, and MongoDB.
- Utilized Material-UI for responsive and dynamic web design.
- Incorporated features like confirmation prompts, snack-bars, loading states, and form validation.

2. Sopa Market Clone | ⊕ | 🐙
JavaScript | React | Redux | Git | HTML5 | CSS3 | JSON mock server
- Developed a dynamic and responsive web design using React, Redux, JavaScript, CSS, and HTML.
- Implemented essential e-commerce features such as filtering, pagination, add to cart, and payment processing.
- Employed a JSON mock server API for backend operations.
- Worked collaboratively in a team setting with shared responsibilities.

3. Auto Part clone | ⊕ | 🐙
JavaScript | Git | Responsive Web Design | HTML5 | CSS3
- Collaborated with a team to develop a dynamic and responsive website for online auto part sales.
- Implemented key features including signup, login, product search, product addition, and payment gateway using vanilla JavaScript, CSS, and HTML.
